- What is *Industrial Training and Industrial Research* ?
- Hence the introduction of undergrduate research projects - a new course unit for B.Sc General Degree Programme: **FSC32P2.**

Things our students did under FSC32P2 ...

- Study of the avifauna in the Kiralakele forest reserve.

Things our students did under FSC32P2 ...

- Study of the avifauna in the Kiralakele forest reserve.
- Construction of an electronically controlled automated water pumping controlling system.

Things our students did under FSC32P2 ...

- Study of the avifauna in the Kiralakele forest reserve.
- Construction of an electronically controlled automated water pumping controlling system.
- A study of the effect of insecticide on the mosquito larvae of the genus Aedis Effect of pesticides on mosquito lava in Hikkaduwa.

- A Microprocessor Controlled Door Security System

Things our students did under FSC32P2 ...

- Programmable Power ON/OFF Timer Switch::
The switch is controlled by a microcontroller stored in an EEPROM.

Things our students did under FSC32P2 ...

- Programmable Power ON/OFF Timer Switch::
The switch is controlled by a microcontroller stored in an EEPROM.
- Construction of a Security Access to USB disks::
The guard system consists of -(i) USB device identification unit, (ii) Centrl Control Unit and (iii) USB connecting switch.
